Cyber Security Assurance Package

BRONZE

Our bronze package is ideal for small businesses and start-ups, featuring a number of cutting edge security tools to protect your company's sensitive data and help you stay safe and secure online.

Cyber Essentials Plus Certification (Pass First Time)

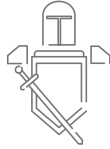

- ✓ Government approved cyber security certification
- ✓ Protects your business from 80% of internet originated cyber threats
- ✓ Provides evidence for supply chain assurance
- ✓ Meets the National Cyber Security Centre (NCSC) security benchmark across five key technical controls: Boundary Firewalls, Access Control, Malware Protection, Patch Management and Secure Configuration

External Quarterly Vulnerability Assessment

- ✓ Provides ongoing threat assessment and reporting
- ✓ Details a clear patch management plan
- ✓ Proactively allows remediation of issues that are most likely to be exploited
- ✓ Enhances your monitoring service by integration of vulnerability awareness

Worried about your cyber security protection?

Call us on 0800 090 3734 to see how we can help you.

Cyber Security Assurance Package

SILVER

Our Silver package includes all the features of Bronze, with the added protection of our External Infrastructure Penetration Testing. This option is perfect for SMEs or smaller companies looking for a little extra security.

Cyber Essentials Plus Certification (Pass First Time)

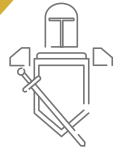

External Quarterly Vulnerability Assessment

External Infrastructure Penetration Testing

- ✓ Simulated hacking by certified experts to highlight any weaknesses in your security systems
- ✓ Meets a number of regulatory compliance requirements
- ✓ Provides a clear understanding of the potential business impact caused by a security breach, such as data exfiltration, financial loss and reputational damage
- ✓ Helps reduce network downtime risks and improves business continuity

All our packages include a government endorsed certification

“ The 6-month vulnerability scan helps us to ensure our business is still secure ”

Cyber Security Assurance Package

GOLD

Our Gold package is ideal for larger companies. It includes all the features of Bronze and Silver, with the added protection of our External Web Application Penetration Testing.

**Cyber Essentials Plus Certification
(Pass First Time)**

External Quarterly Vulnerability Assessment

External Infrastructure Penetration Testing

External Web Application Penetration Testing

- ✓ Simulated hacking by certified experts to highlight any weaknesses in your internet facing applications
- ✓ Identifies all security vulnerabilities that violate the OWASP Top 10
- ✓ Meets a number of crucial regulatory compliance requirements
- ✓ Provides a clear understanding of the potential business impact caused by a security breach, such as data exfiltration, financial loss and reputational damage
- ✓ Includes detailed reports of attack simulations, outlining the ways in which an attacker might exploit a vulnerability in your infrastructure

“ The tiered approach to the cyber security packages allowed us to get what we needed in the package that suited our organisation ”

Cyber Security Assurance Package

PLATINUM

This is our ultimate package, with all the benefits of Bronze, Silver and Gold, plus the added protection of our HarpoonX Phishing Simulation & Training service.

Cyber Essentials Plus Certification (Pass First Time)

External Quarterly Vulnerability Assessment

External Infrastructure Penetration Testing

External Web Application Penetration Testing

HarpoonX Phishing Simulation & Training

- ✓ Simulated phishing campaigns to help you understand your company's exposure to phishing threats
- ✓ Employs multiple simulated attack vectors, such as payloads, credential harvesting or benign ransomware
- ✓ Employee training via an online portal to improve awareness of phishing, at work and at home
- ✓ Provides in-depth analytics, including the number of email opens, clicks, and details of user credentials
- ✓ Provides evidence that your organisation is taking positive steps to prevent phishing attacks

Our bespoke Cyber Security Packages meet the needs of every business
